Conference on Tropical Medicine and Global Health

April 4 - 6, 2019

University of Munich

Jahrestagung der

Deutschen Gesellschaft für Tropenmedizin und Internationale Gesundheit (DTG)

Österreichischen Gesellschaft für Tropenmedizin, Parasitologie und Migrationsmedizin (ÖGTPM)

CALL FOR ABSTRACTS

www.dtg-jahrestagung2019.de

Welcome

Dear Colleagues,

we cordially invite you to the **Conference on Tropical Medicine and Global Health** in Munich! This year the interdisciplinary conference has a new format and will run once more as a joint annual meeting between the German Society for Tropical Medicine and International Health (Deutsche Gesellschaft für Tropenmedizin und Internationale Gesundheit, DTG) and the Austrian Society for Tropical Medicine, Parasitology and Migration Medicine (Österreichische Gesellschaft für Tropenmedizin, Parasitologie und Migrationsmedizin, ÖGTPM). We are also honoured to have the following societies taking part

- The Society for Dermatology in the Tropics e.V. (DTG)
- The Committee for Women's Health Issues in Development Cooperation (AG FIDE)
- The Society for Paediatrics in the Tropics (GTP)
- The German Society for Surgery in the Tropics (DTC)
- The German Center for Infection Research (DZIF)

Another new feature is that the Symposium for Humanitarian Aid and Development Cooperation will be held as a parallel track on April 5th.

For the first time, this conference will officially be held in English as well as German, to enable wider international participation. In addition, for the first time we are featuring a partner country, Tanzania, which will be at the focus of our attention. We are very much looking forward to welcoming colleagues from Tanzania and other parts of the tropical world.

Sustainable solutions to Global Health challenges require novel and ever more comprehensive and multidisciplinary approaches. We therefore aim to bring together different fields of expertise as well as numerous stakeholders in order to broaden perspectives, facilitate interdisciplinary exchange and promote innovation.

Parallel tracks at this conference will address important issues in clinical care of travelers and migrants, novel diagnostics, highlights in basic research and testing of new clinical interventions, as well as their efficient use in improving health care in developing countries. Under the track „**Partner Country Tanzania**“ we recognize that solutions can only be found in cooperation with partners in the developing world and highlight the importance of research driven by our partners. We will also invite presentations of successful examples of research and development cooperation.

Finally, it is a great honour for us that the Bavarian Government Executive (Bayerische Staatskanzlei) will host an official reception for the congress participants in the classical building of the Residenz. An event you should not miss!

We are looking forward to seeing you in Munich from 4th to 6th of April 2019!

Prof. Dr. Michael Hoelscher
Conference Chair
Dr. Camilla Rothe
Chair Scientific Committee

Prof. Dr. Herwig Kollaritsch
Chairman ÖGTPM
Dr. Dr. Carsten Köhler
Chairman DTG

Scientific Program at a Glance

Thursday, April 4, 2019

11.00-13.00	Pre-Meetings			
13.00-14.00	Lunch Break			
14.00-15.00	PL1 Plenary „Tanzania – Europa“			
15.00-15.30	Coffee Break			
15.30-17.00	S1: Novel Diagnostics/ Digital Health	S2: Partner Country Tanzania/ Gesundheits-Exzellenzzentren	S3: One Health/ Emerging Infections (DZIF) 	S4: Global Health 1
from 18.30	Congress Opening: Get-together at the Residenz Munich			

Friday, April 5, 2019

	Room 1	Room 2	Room 3	Room 4

Abstract Submission

We would like to offer all interested colleagues the opportunity to present and to discuss their data at the Meeting in Munich and call for abstracts. We encourage in particular juniors or scientists to present their research during the conference.

Abstract Topics

Abstracts can be submitted to the following topics:

- Novel Diagnostics / Digital Health
- Tuberculosis & Antimicrobial Resistance (AMR)
- Preventive Medicine / Occupational Health
- Blood-borne Infections
- HIV & Hepatitis
- Malaria / Vector-borne Diseases
- Climate Change and Health / Environmental Health
- Non-communicable Diseases / Health Systems
- Neglected Tropical Diseases
- Travel Medicine
- Tropical Dermatology
- Gynaecology & Obstetrics in the Tropics
- Tropical Paediatrics
- Tropical Surgery
- DZIF
- Junge DTG
- Others
- One Health
- Emerging Infections
- Global Health

Please find all information about the abstract submission at www.dtg-jahrestagung2019.de
